Also, any person who shall secure the use of a telephone party-line by falsely stating that such line is needed for an emergency call, shall be guilty of a misdemeanor. "Emergency" means "a situation in which property or human life is in jeopardy and the prompt summoning of aid is essential."

HOW TO GET TELEPHONE NUMBER INFORMATION

FOR LOCAL NUMBERS not in this directory:

From DIAL telephones:
In ARROYO GRANDE and SAN LUIS OBISPO, dial 113.
From OTHER DIAL telephones, dial Operator and ask for Information.

From NON-DIAL telephones, ask for Information.

FOR TELEPHONE NUMBERS AT ALL OTHER POINTS dial Operator, or from non-dial telephones ask for Long Distance. Then ask the operator who answers for Information at the place you want to call; for example: "I want Sacramento Information."

HOW TO USE YOUR TELEPHONE

HOW TO DIAL A CALL

Listen for a steady "humming" sound, the **dial tone.** Then dial. If the number includes a prefix be sure to dial the first two capitalized letters and numeral in the prefix, then the remaining numerals.

WHAT THE SIGNALS MEAN

You will know when the telephone you have called begins to ring, by the **ringing signal,** a "burring" tone repeated at regular intervals. Let it ring at least a minute before you hang up. That will give the person you are calling time to answer.

The **busy signal** is a "buzz-buzz" tone. When you hear it, hang up and wait a few minutes before dialing again.

A siren-like sound that rises and falls is the **dial-again signal.** It means there has been a mistake on the call. **No signal** may mean a mistake. Hang up. Check the number you called to see if it was right. Then dial again—making sure you wait for the dial tone first and then dial the number. If there is still no signal, dial Operator and report the condition.

If you are talking on the telephone and hear a short high "beep" tone every 15 seconds or so, it is a **voice-recording signal.** This means the person you are talking to is recording your conversation. It is against the law to use a recorder without this signal.

HOW TO CALL SOMEONE ON YOUR PARTY LINE

To find out the number of a telephone on your party line, call **Repair Service.**

From LIberty 3 telephones:

Dial the listed number. When you hear the high pitched party-line signal here's what to do.

If there is a single numeral on your dial number plate opposite "PTY Code" dial that numeral after you hear this tone. When you hear a "busy" signal hang up. If there is no numeral on your number plate opposite "PTY Code" hang up as soon as you hear the high pitched tone. Your phone and the called phone will ring at regular intervals. Ringing will stop when the called telephone answers. Then lift the receiver and start conversation.

If ringing does not stop after a reasonable period, you can stop it by lifting your receiver.

From ALL OTHER DIAL telephones:

Dial a **special number** you can get from **Repair Service.** When you finish dialing, replace your receiver. Your telephone and the called telephone will ring at regular intervals. Ringing will stop when the called telephone answers. Lift your receiver and begin conversation.

If ringing does not stop after a reasonable period, you can stop it by lifting your receiver.

CALLS YOU CAN DIAL YOURSELF

From a DIAL telephone you can dial any other telephone in the same exchange.

DIRECT DISTANCE DIALING

From LIberty 3 (San Luis Obispo) ONE and TWO Party Telephones Only (except pay phones)

With **Direct Distance Dialing** you can dial Station-to-Station calls to many places in California and across the nation that have two capitalized letters and a numeral in the prefix followed by four other numerals. For example, numbers like EMpire 3-2999 in Sacramento and ACademy 2-9970 in New York can be dialed direct. You cannot dial Person-to-Person calls, Collect calls, ENterprise calls or other calls requiring operator service.

To make **DDD** possible, the United States has been divided into telephone numbering areas. Each area serves all or part of a state and has its own three-digit number called an **"Area Code."**

HOW TO DIAL

From LIberty 3 ONE and TWO party telephones only

IN your Home Area dial the telephone number as you would a local call. For example, to call FRontier 2-0015 in Monterey—

Just dial the number.........................FR 2-0015

OUTSIDE your Home Area, first dial the Area Code, then the telephone number. For example, to call EMpire 3-2999 in Sacramento—

Dial the Area Code for Sacramento..............916

Then the number ....EM 3-2999

Here is a list of SOME of the cities you can dial direct and their **Area Codes:**

If You Reach a Wrong Number

The operator can adjust the charge. Ask the person who answers what city and state he is in. Then dial Operator immediately and tell her.

IF YOU ARE NOT SURE ABOUT DIALING YOUR OUT-OF-TOWN CALL, DIAL OPERATOR. SHE WILL TELL YOU IF THE PLACE IS DIALABLE AND, IF NEEDED, THE AREA CODE.

CALLS YOU PLACE THROUGH OPERATOR

There are certain calls you place through an operator:

Station-to-Station calls you cannot dial direct
Person-to-Person calls
ENterprise calls
Collect calls

Station-to-Station Calls

When you will talk with anyone who answers the called telephone, you make the call "station-to-station".

Tell the Operator the name of the city and the telephone number you want. If you do not know the number, give the Operator the name and address the telephone is listed under and tell her you will talk with anyone who answers.

Person-to-Person Calls

When you want to talk to a particular person, department or extension, you can make the call "person-to-person".

Tell the Operator the name of the city . . . the telephone number (or the name and address the telephone is listed under) . . . and tell her what person, department or extension you want.

The charge for this kind of call is somewhat more than for a "station-to-station" call.

Collect Calls

When you want your call billed to the number you are calling, you can make the call "collect".

Tell the Operator when you place the call—not afterwards—that you want it made "collect".

The minimum charge for a "collect" call is 30c. Otherwise, collect calls cost the same as other calls.

Other Long Distance Calls

It will help also if you ask for:

Overseas Operator ....on calls overseas or to Alaska
Marine Operator ....on calls to ships and planes
Mobile Service Operator ....on calls to autos, trucks, trains

Upon request, the Operator will notify you at the end of a stated period of time on long distance calls.

How to make good telephone service even better....

You'll save time if you look up numbers *before* you call

Have you ever had the feeling that you're *not quite sure* of a familiar telephone number you're about to call? Even the number of a friend you call quite often? Your memory tells you it's 3198. Or is it 3189? The best way to settle it is to look up numbers *before* you call.

You'll save time—and avoid the delay and embarrassment of having a stranger answer if your memory tricks you into getting an incorrect number.

Pacific Telephone

California's most USED advertising medium THE YELLOW PAGES of your telephone directory

more than nine out of ten California people use → THE YELLOW PAGES

one out of two California businesses advertise in → THE YELLOW PAGES

AND HERE'S WHY

CALIFORNIA PEOPLE have found that the Telephone Directory's Yellow Pages afford them a quick, easily used index of the firms that handle the products and services they want to buy.

CALIFORNIA BUSINESSES have found that advertising in the Telephone Directory's Yellow Pages is one of the best ways to attract customers for the products and services they sell.

YOUR GUIDE TO PROFITABLE ADVERTISING

Your telephone Directory Representative can help you make the most profitable use of your advertising in the Yellow Pages of the Telephone Directory. He's a regular employee of your telephone company, specially trained to advise you, not only on what type of advertising to use, but also on how to train your organization to make it produce results. Call your Telephone Business Office, they will arrange to have a man contact you.

Pacific Telephone

far from home?

Long distance visits cost so little

See for yourself. Check the typical rates listed on the inside cover of this directory. You'll notice, too, that night and Sunday calls cost even less than those you make at the low, day "station" rates.

When you dial

numbers which include a central office name

please remember...

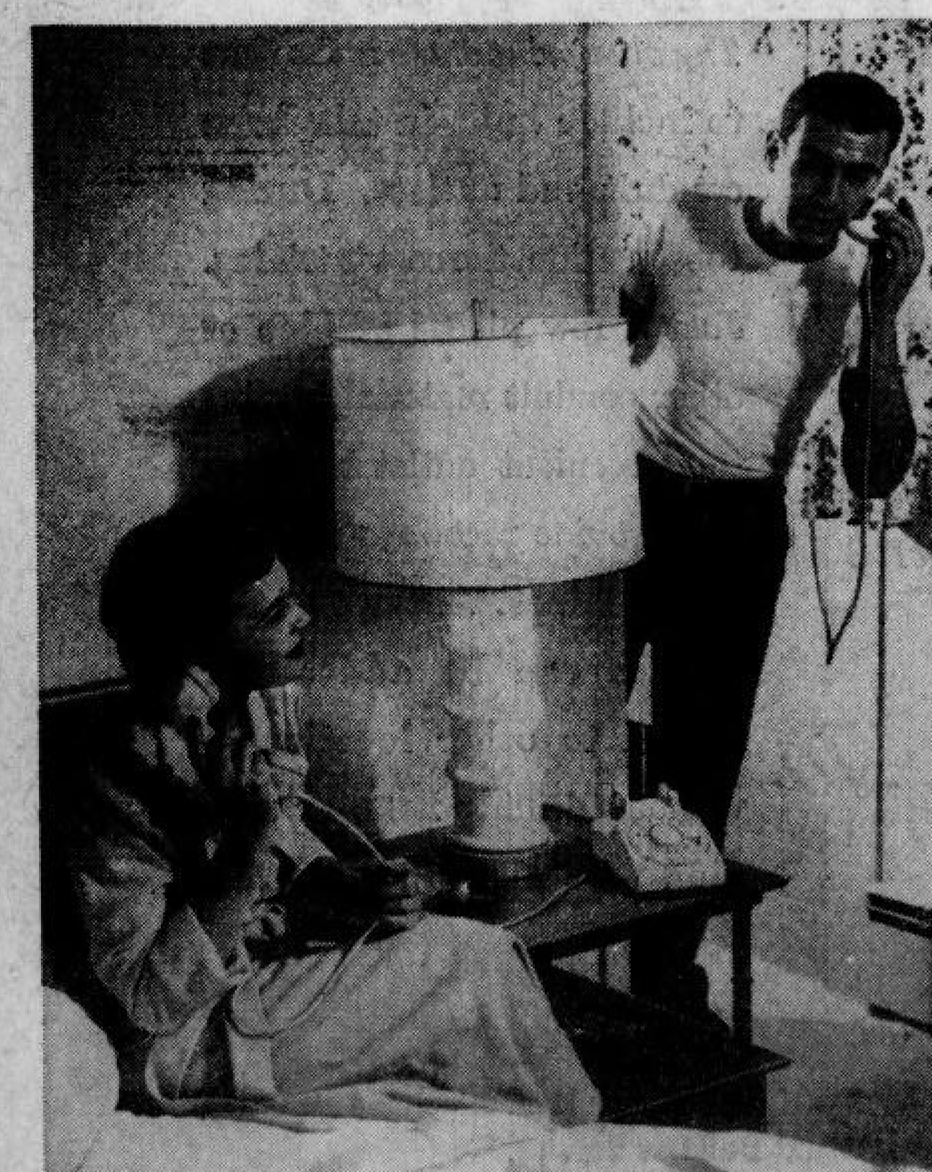
Always dial the first two letters and the numeral in the central office name... followed by the remaining figures in the number.

How to make good telephone service even better....

Yours for the asking... this free booklet

is an easy way to keep an up-to-date list of local and out-of-town numbers you call often. It's convenient, too, for jotting down new numbers . . . so you'll have them handy the next time you need them.

How to get your free booklet For your free personal number booklet—just telephone, send a postcard, or drop in at your nearest Pacific Telephone business office. Why not get your copy today!



Pacific Telephone

WITHIN EASY REACH for BUSY PEOPLE

in YOUR TELEVISION ROOM

A telephone will serve you well when located close to your favorite chair in the television room. No need to miss a part of any program to answer your important calls.

or at YOUR BEDSIDE

You will find a telephone a real comfort, ready at your fingertips during your resting hours. When sickness or confinement strikes, it is your tie to friends and pleasant moments. In an emergency, a link to help and security.

***The blue-print stage* is the time to include built-in telephone conduit and outlets. During construction, the cost is trifling. Just a few pieces of pipe or other conduit material leading to convenient outlet locations will provide raceways for telephone wires. Later on telephones can be added—or moved to other locations—without drilling holes or running wire along baseboards.**

For free help in planning modern, built-in telephone wiring, call your local telephone company number and ask for free "Architects and Builders Service."

ONIONLESS ONION
If you like potato salad but do not like raw onion, you might try boiling an onion in the water in which you are boiling the potatoes for the salad. This gives the Spuds the flavor of onion.

KEEP LIGHT FROM MILK
Keep light from milk to prevent loss of riboflavin, its most important vitamin element. If you don't meet the milkman, leave out a covered, insulated box for bottles of milk. Remember that light hurts milk more than heat does in a short time.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

Party Line Pointers:
1. Space your calls instead of making a whole series.
2. If yours is an emergency call and the line is in use, explain the circumstances to the person using the line.
3. If you are calling from a dial telephone always make certain the line is clear before you dial.
4. When the children use the telephone, ask them to be considerate, too.
5. Replace the receiver properly when you finish your call.

Good party-line neighbors are considerate party-line users. Remember these golden rules:
- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

TO GLUE FURNITURE

In gluing a loose furniture joint, remember that glue doesn't provide strength in filling an open space, so first put a strip of thin cotton cloth over the piece that fits into the mortise. Then do the gluing, tie the joint firmly together and let it set for 24 hours.

Party Line Pointers:
1. Space your calls instead of making a whole series.
2. If yours is an emergency call and the line is in use, explain the circumstances to the person using the line.
3. If you are calling from a dial telephone always make certain the line is clear before you dial.
4. When the children use the telephone, ask them to be considerate, too.
5. Replace the receiver properly when you finish your call.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

Good party-line neighbors are considerate party-line users. Remember these golden rules:
• Space your calls instead of making several without a break.
• Talk only as long as necessary on each call.
• When you finish talking replace the receiver properly.
• Make certain, if you are using a dial telephone, that the line is clear before you dial.
• Ask your youngsters to be considerate, too.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

NEWSPAPER FIREWOOD

To make a small grate or stove fire, or to kindle a big one, use old newspapers which have been rolled up tightly, soaked overnight in water, squeezed out and allowed to dry for several days. The tighter they are squeezed, the better firewood they make.

Purchasing agents and other buyers of materials and parts find the Yellow Pages of the Telephone Directory invaluable in locating local sources of supply.

Two friendly telephone habits: QUICK to answer when your bell rings; SLOW to hang up when you call someone who does not immediately respond. In calling others, remember that the called person may be almost there—so wait a few seconds longer.

The men and women in the Bell System are used to meeting emergencies and they are trained and equipped to carry on in times of special need. For years they have known the test of fire, flood and storm. Always before them is the tradition that "the message must go through."

Don't forget to plan for concealed telephone conduit and convenient locations for telephone outlets when you build your new home. These built-in telephone facilities add real value to a home, yet their cost is very small if they are installed during construction.

CAN YOU TIE THIS?

To keep the string from loosening on a package, wet it before you tie the package. String will shrink as it dries.

Don't forget to plan for concealed telephone conduit and convenient locations for telephone outlets when you build your new home. These built-in telephone facilities add real value to a home, yet their cost is very small if they are installed during construction.

SEWING ON BUTTONS

While sewing a button on a garment keep a pin stuck between the cloth and the button. This will leave enough play for easy buttoning.

You'll get quicker service when you dial if you follow these simple steps:

1. Listen for the dial tone. This tone is your signal that the equipment is ready to take your call.
2. Dial each letter and digit of the number in its right order.
3. Draw the dial all the way to the finger stop.
4. Remove your finger and let the dial return naturally, without forcing or hurrying.
5. If you make a mistake while dialing, hang up for a few seconds and then start your call again.

ONIONLESS ONION

If you like potato salad but do not like raw onion, you might try boiling an onion in the water in which you are boiling the potatoes for the salad. This gives the Spuds the flavor of onion.

ONIONLESS ONION

If you like potato salad but do not like raw onion, you might try boiling an onion in the water in which you are boiling the potatoes for the salad. This gives the Spuds the flavor of onion.

TO GLUE FURNITURE

In gluing a loose furniture joint, remember that glue doesn't provide strength in filling an open space, so first put a strip of thin cotton cloth over the piece that fits into the mortise. Then do the gluing, tie the joint firmly together and let it set for 24 hours.

TO GLUE FURNITURE

In gluing a loose furniture joint, remember that glue doesn't provide strength in filling an open space, so first put a strip of thin cotton cloth over the piece that fits into the mortise. Then do the gluing, tie the joint firmly together and let it set for 24 hours.

GREASE BEFORE USING

Caps of nail polish and glue bottles won't stick if the screw threads are greased with cold cream or oil.

TO REPAIR LINOLEUM

If you have a break in the edge of linoleum, take a good-sized piece of cloth (to reach well beyond the break at all points), cover it with glue and put it beneath the linoleum. Weight it down with heavy objects until it has had time to dry and set.

Two friendly telephone habits: QUICK to answer when your bell rings; SLOW to hang up when you call someone who does not immediately respond. In calling others, remember that the called person may be almost there—so wait a few seconds longer.

You can shop at home . . . easily and comfortably . . . by thumbing through the Yellow Pages. Your Classified Directory lists 'most every store in town . . . helps you find everyone who sells and serves.

Simplify your buying—know where to buy it. The dealers in many nationally advertised articles are listed in the Yellow Pages. Make it a habit to "Look inside the Classified" before buying.

NON-SKID FOR MIXING BOWL

A folded damp cloth placed under a mixing bowl keeps it from slipping and speeds mixing.

A Directory Advertising Representative will be glad to help you prepare a Classified Directory advertisement that will bring you more business. You can reach him by calling the Business Office of the telephone company.

TASTY TIP

A dash of hot coffee added to pan drippings enriches the flavor and color of gravy from steaks, chops or ham.

CARRY COLOR SAMPLES

When a wall is painted, have the painter paint the color on a small piece of board. Then take this with you when you look at draperies, furniture, rugs, pictures, etc., for that room.

ROLLING PIE-CRUST
When rolling pie-crust, you can keep it from sticking to the rolling pin or breadboard by putting the dough between sheets of oiled paper.

STOP THOSE SPOTS

WILLOW SPRINGS MAINTENANCE CAMP

Calif Div of Highways, Agent Call Long Distance

FOUR *Thoughtful* ITEMS OF TELEPHONE PROCEDURE

1. Please answer promptly.
2. Please be on the line when the party you want answers.
3. Please speak distinctly and slowly, with the lips just clearing the transmitter.
4. Please replace the receiver gently when through talking.

Get the right number first

Get it from the directory. If there's any doubt about it, look up the number before you call. It's mighty easy to get numbers twisted if you depend on memory alone. And since looking up numbers in the directory is so easy, it's a good way to save time in making your calls.

How to make good telephone service even better . . .

You won't miss important calls

when you answer promptly. When you have only two cards left to play in an exciting grand slam hand—or in any situation where you'd like to say "Wait a minute!" —it's always a temptation not to answer the telephone immediately. The person calling, though, doesn't know what you're doing and may hang up, thinking you are not at home. That way you may miss important calls. So, next time your telephone rings, won't you try to answer as quickly as you can?

Pacific Telephone

INSTALLED for CONVENIENCE

in MOTHER'S SEWING ROOM

With a telephone handy in her sewing room, Mother will not have to leave and dash to answer calls. Advice from friends on how to do it will also be close at hand.

and in the RECREATION ROOM

Located in your recreation room, a telephone will add to your comfort and pleasure. Close at hand during exciting moments of home games or while relaxing in moments of solitude, this telephone will stop your rushing to other rooms to answer calls.

ON THE FRONT COVER

The majestic sand dunes in San Luis Obispo County extend about 20 miles southward in a sweeping coastal arc from the popular resort of Pismo Beach to Point Sal in Santa Barbara County. Silent and awesome, the vistas of grotesque and ever-changing sand patterns have been used many times by motion picture companies to film desert scenes.

Also, any person who shall secure the use of a telephone party-line by falsely stating that such line is needed for an emergency call, shall be guilty of a misdemeanor. "Emergency" means "a situation in which property or human life is in jeopardy and the prompt summoning of aid is essential."

HOW TO MAKE A SERVICE CALL

HOW TO GET TELEPHONE NUMBER INFORMATION

FOR LOCAL NUMBERS not in this directory:

From DIAL telephones:
In ARROYO GRANDE and SAN LUIS OBISPO, dial 113.
From OTHER DIAL telephones, dial Operator and ask for Information.

From NON-DIAL telephones, ask for Information.

FOR TELEPHONE NUMBERS AT ALL OTHER POINTS dial Operator, or from non-dial telephones ask for Long Distance. Then ask the operator who answers for Information at the place you want to call; for example: "I want Sacramento Information."

HOW TO USE YOUR TELEPHONE

HOW TO DIAL A CALL

Listen for a steady "humming" sound, the **dial tone.** Then dial. If the number includes a prefix be sure to dial the first two capitalized letters and numeral in the prefix, then the remaining numerals.

WHAT THE SIGNALS MEAN

You will know when the telephone you have called begins to ring, by the **ringing signal,** a "burring" tone repeated at regular intervals. Let it ring at least a minute before you hang up. That will give the person you are calling time to answer.

The **busy signal** is a "buzz-buzz" tone. When you hear it, hang up and wait a few minutes before dialing again.

A siren-like sound that rises and falls is the **dial-again signal.** It means there has been a mistake on the call. No signal may mean a mistake. Hang up. Check the number you called to see if it was right. Then dial again—making sure you wait for the dial tone first and then dial the number. If there is still no signal, dial Operator and report the condition.

If you are talking on the telephone and hear a short high "beep" tone every 15 seconds or so, it is a **voice-recording signal.** This means the person you are talking to is recording your conversation. It is against the law to use a recorder without this signal.

HOW TO CALL SOMEONE ON YOUR PARTY LINE

To find out the number of a telephone on your party line, call **Repair Service.**

From LIberty 3 telephones:

Dial the listed number. When you hear the high pitched party-line signal here's what to do.

If there is a single numeral on your dial number plate opposite "PTY Code" dial that numeral after you hear this tone. When you hear a "busy" signal hang up. If there is no numeral on your number plate opposite "PTY Code" hang up as soon as you hear the high pitched tone. Your phone and the called phone will ring at regular intervals. Ringing will stop when the called telephone answers. Then lift the receiver and start conversation.

If ringing does not stop after a reasonable period, you can stop it by lifting your receiver.

From ALL OTHER DIAL telephones:

Dial a **special number** you can get from **Repair Service.** When you finish dialing, replace your receiver. Your telephone and the called telephone will ring at regular intervals. Ringing will stop when the called telephone answers. Lift your receiver and begin conversation.

If ringing does not stop after a reasonable period, you can stop it by lifting your receiver.

CALLS YOU CAN DIAL YOURSELF

From a DIAL telephone you can dial any other telephone in the same exchange.

DIRECT DISTANCE DIALING

From LIberty 3 (San Luis Obispo) ONE and TWO Party Telephones Only (except pay phones)

With **Direct Distance Dialing** you can dial Station-to-Station calls to many places in California and across the nation that have two capitalized letters and a numeral in the prefix followed by four other numerals. For example, numbers like EMpire 3-2999 in Sacramento and ACademy 2-9970 in New York can be dialed direct. You cannot dial Person-to-Person calls, Collect calls, ENterprise calls or other calls requiring operator service.

To make **DDD** possible, the United States has been divided into telephone numbering areas. Each area serves all or part of a state and has its own three-digit number called an **"Area Code."**

HOW TO DIAL

From LIberty 3 ONE and TWO party telephones only

IN your Home Area dial the telephone number as you would a local call. For example, to call FRontier 2-0015 in Monterey—

Just dial the number........................FR 2-0015

OUTSIDE your Home Area, first dial the Area Code, then the telephone number. For example, to call EMpire 3-2999 in Sacramento—

Dial the Area Code for Sacramento.............916
Then the number ....EM 3-2999

Here is a list of SOME of the cities you can dial direct and their **Area Codes:**

If You Reach a Wrong Number

The operator can adjust the charge. Ask the person who answers what city and state he is in. Then dial Operator immediately and tell her.

IF YOU ARE NOT SURE ABOUT DIALING YOUR OUT-OF-TOWN CALL, DIAL OPERATOR. SHE WILL TELL YOU IF THE PLACE IS DIALABLE AND, IF NEEDED, THE AREA CODE.

CALLS YOU PLACE THROUGH OPERATOR

There are certain calls you place through an operator:

- Station-to-Station calls you cannot dial direct
- Person-to-Person calls
- ENterprise calls
- Collect calls

Station-to-Station Calls

When you will talk with anyone who answers the called telephone, you make the call "station-to-station".

Tell the Operator the name of the city and the telephone number you want. If you do not know the number, give the Operator the name and address the telephone is listed under and tell her you will talk with anyone who answers.

Person-to-Person Calls

When you want to talk to a particular person, department or extension, you can make the call "person-to-person".

Tell the Operator the name of the city . . . the telephone number (or the name and address the telephone is listed under) . . . and tell her what person, department or extension you want.

The charge for this kind of call is somewhat more than for a "station-to-station" call.

Collect Calls

When you want your call billed to the number you are calling, you can make the call "collect".

Tell the Operator when you place the call—not afterwards—that you want it made "collect".

The minimum charge for a "collect" call is 30c. Otherwise, collect calls cost the same as other calls.

Other Long Distance Calls

It will help also if you ask for:

Overseas Operator ....on calls overseas or to Alaska
Marine Operator ....on calls to ships and planes
Mobile Service Operator ....on calls to autos, trucks, trains

Upon request, the Operator will notify you at the end of a stated period of time on long distance calls.

California's most USED advertising medium
THE YELLOW PAGES
of your telephone directory

more than nine out of ten California people use ➡ THE YELLOW PAGES
one out of two California businesses advertise in ➡

AND HERE'S WHY

CALIFORNIA PEOPLE have found that the Telephone Directory's Yellow Pages afford them a quick, easily used index of the firms that handle the products and services they want to buy.

CALIFORNIA BUSINESSES have found that advertising in the Telephone Directory's Yellow Pages is one of the best ways to attract customers for the products and services they sell.

YOUR GUIDE TO PROFITABLE ADVERTISING

Your telephone Directory Representative can help you make the most profitable use of your advertising in the Yellow Pages of the Telephone Directory. He's a regular employee of your telephone company, specially trained to advise you, not only on what type of advertising to use, but also on how to train your organization to make it produce results. Call your Telephone Business Office, they will arrange to have a man contact you.

Pacific Telephone

How to make good telephone service even better....

You'll save time if you look up numbers before you call

Have you ever had the feeling that you're *not quite sure* of a familiar telephone number you're about to call? Even the number of a friend you call quite often? Your memory tells you it's 3198. Or is it 3189? The best way to settle it is to look up numbers *before* you call. You'll save time—and avoid the delay and embarrassment of having a stranger answer if your memory tricks you into getting an incorrect number.

Pacific Telephone

Long distance calls

mean so much
cost so little

A long distance "visit" costs so little anytime you call—day or night. It's a special bargain after 6 p.m. on weekdays and all day Sunday.

★ **Low long distance rates to many cities are shown on the inside cover of this directory.**

When you dial

numbers which include a central office name

please remember...

Always dial the first two letters and the numeral in the central office name... followed by the remaining figures in the number.

FREE telephone number booklet

Handy booklets like these...

for your personal local and out-of-town numbers—are yours for the asking. Just write or stop in at your Pacific Telephone business office. By keeping a list of numbers you call frequently, you'll save plenty of time. Remember, your long distance calls go through twice as fast when you call by number.

INSTALLED for CONVENIENCE

in MOTHER'S SEWING ROOM

With a telephone handy in her sewing room, Mother will not have to leave and dash to answer calls. Advice from friends on how to do it will also be close at hand.

and in the RECREATION ROOM

Located in your recreation room, a telephone will add to your comfort and pleasure. Close at hand during exciting moments of home games or while relaxing in moments of solitude, this telephone will stop your rushing to other rooms to answer calls.

CALL YOUR SERVICE REPRESENTATIVE AT PACIFIC TELEPHONE

For convenience in the future...

put telephone facilities

in your plans

The blue-print stage is the time to include built-in telephone conduit and outlets. During construction, the cost is trifling. Just a few pieces of pipe or other conduit material leading to convenient outlet locations will provide raceways for telephone wires. Later on telephones can be added — or moved to other locations — without drilling holes or running wire along baseboards.

For free help **in planning modern, built-in telephone wiring, call your local telephone company number and ask for free "Architects and Builders Service."**

TO GLUE FURNITURE

In gluing a loose furniture joint, remember that glue doesn't provide strength in filling an open space, so first put a strip of thin cotton cloth over the piece that fits into the mortise. Then do the gluing, tie the joint firmly together and let it set for 24 hours.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

TO REPAIR LINOLEUM
If you have a break in the edge of linoleum, take a good-sized piece of cloth (to reach well beyond the break at all points), cover it with glue and put it beneath the linoleum. Weight it down with heavy objects until it has had time to dry and set.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

In these busy days when saving time is so important, more and more telephone users are following the thoughtful way of answering the telephone: "Harry Smith speaking." Such an introduction establishes identity, saves time and makes a good impression.

PLEASE LISTEN FOR THE DIAL TONE BEFORE DIALING

That "dial tone," a steady hum, is the signal that the equipment is ready to receive a call. It corresponds to an operator's "Number, please?"

KEEP LIGHT FROM MILK
Keep light from milk to prevent loss of riboflavin, its most important vitamin element. If you don't meet the milkman, leave out a covered, insulated box for bottles of milk. Remember that light hurts milk more than heat does in a short time.

Good party-line neighbors are considerate party-line users. Remember these golden rules:
- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

FOUR THOUGHTFUL ITEMS OF TELEPHONE PROCEDURE

1. Please answer promptly.
2. Please be on the line when the party you want answers.
3. Please speak distinctly and without hurrying, with the lips close to the mouthpiece.
4. Please replace the receiver gently when through talking.

NEWSPAPER FIREWOOD

To make a small grate or stove fire, or to kindle a big one, use old newspapers which have been rolled up tightly, soaked overnight in water, squeezed out and allowed to dry for several days. The tighter they are squeezed, the better firewood they make.

Here's how you may be sure of getting your party more often when you dial:

1. Look up your number in the latest directory.
2. Listen for the steady hummmm of the dial tone.
3. Keep your eye on the dial.
4. Wait a minute before you decide your party isn't home.

KEEP LIGHT FROM MILK

Keep light from milk to prevent loss of riboflavin, its most important vitamin element. If you don't meet the milkman, leave out a covered, insulated box for bottles of milk. Remember that light hurts milk more than heat does in a short time.

If you have a break in the edge of linoleum, take a good-sized piece of cloth (to reach well beyond the break at all points), cover it with glue and put it beneath the linoleum. Weight it down with heavy objects until it has had time to dry and set.

1. Space your calls instead of making a whole series.
2. If yours is an emergency call and the line is in use, explain the circumstances to the person using the line.
3. If you are calling from a dial telephone always make certain the line is clear before you dial.
4. When the children use the telephone, ask them to be considerate, too.

The men and women in the Bell System are used to meeting emergencies and they are trained and equipped to carry on in times of special need. For years they have known the test of fire, flood and storm. Always before them is the tradition that "the message must go through."

Good party-line neighbors are considerate party-line users. Remember these golden rules:
- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

An extension telephone in another part of the house saves time and steps. The cost is small.

Here's how you may be sure of getting your party more often when you dial:
1. Look up your number in the latest directory.
2. Listen for the steady hummmm of the dial tone.
3. Keep your eye on the dial.
4. Wait a minute before you decide your party isn't home.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.
